Inasmuch as this office has been unable to complete the Bureau's copy of the permanent Japanese arrest register, due to lack of permanent register sheets, a weekly arrest register is not being submitted for that nationality.

Dear Sir:

Reference is made to your letter of March 4, 1942 under which you transmitted copies of a memorandum received from Mr. EDWARD J. ENNIS, Director, Alien Enemy Control Unit, concerning the Alien Japanese Fishermen who were recently apprehended in this Area, Bureau file No. 100-2. In that letter you instructed this office to immediately furnish the Butte and Sioux Falls Field Divisions with the names and any information concerning these individuals in order that those offices might immediately interview them.

It is brought to your attention that all of these individuals have been interviewed by Agents of the Los Angeles Field Division and the results of these interviews have been incorporated in the apprehension reports thereafter dictated. Copies of these reports have been furnished to the United States Attorney and to the U. S. Immigration and Naturalization Service and will be available at the time of the hearings afforded these Subjects. Therefore, it would seem unnecessary for the Butte and Sioux Falls Divisions to conduct further interviews.

Re: INTERNAL SECURITY
(ALIEN ENEMY CONTROL)

Reference is made to Bureau letter dated February 17, 1942, in regard to the establishment of Field Division Arrest Registers for recording arrests of German, Japanese, and Italian individuals.

There are enclosed herewith duplicate arrest registers for all German and Italian individuals apprehended by this Field Division as alien enemies, since December 7, 1941. It will be noted that in some instances Column Seven, relating to disposition, has been left blank, as concerns the recommendation of the board, and final disposition, due to the fact that this office has not received official notice in one or both of those two instances. Upon receipt of such information, the Bureau will be promptly advised.

Due to the large number of Japanese individuals apprehended in this Field Division, the arrest register for that nationality has not been completed at the present time; however, upon completion it will immediately be forwarded to the Bureau.

FBI Jails 200 Jap Teachers In California

German Pro-Nazi
Suspects Also Seized
In 24-Hour Roundup

By FLORABEL MUIR

LOS ANGELES, March 13 (N.Y. News).—Two hundred Japanese teachers, thrown out of work when California closed 450 Japanese language schools, have been arrested within the last 24 hours as

"potentially dangerous" aliens, it was disclosed tonight.

Those arrested, according to Richard B. Wood, chief of the FBI office here, have been spreading Axis propaganda among their former pupils.

Arrested also were a number of Japanese Buddhist priests and elsewhere in the State, many Germans suspected of pro-Nazi sympathies were taken into custody.

More than 100 FBI men, working with Army and Navy intelligence officers and local police, arrested the Jap teachers south of Santa Barbara and around Los Angeles county, which formerly had 182 Japanese language schools. Wood promised additional arrests.

The allegedly pro-German sympathizers were arrested in raids in San Francisco, where 17 were taken, and in Fresno.

While talking with me on another matter, SAC Hood of the Los Angeles Office asked me if the above-captioned violations should be entered on the arrest register and given a number as are other aliens who have been previously arrested as CD's, etc.

I told him that any aliens arrested for violation of curfew regulations should be entered on the arrest register and given a number as this would help him keep the records straight as to who had been arrested and what disposition had been made.

In response to my inquiry, he stated that they were also entering on the register any aliens picked up with contraband.

CURFEW REGULATIONS

While talking with me on another matter, SAC Hood of the Los Angeles Office asked me if the above-captioned violations should be entered on the arrest register and given a number as are other aliens who have been previously arrested as CD's, etc.

I told him that any aliens arrested for violation of curfew regulations should be entered on the arrest register and given a number as this would help him keep the records straight as to who had been arrested and what disposition had been made.

In response to my inquiry, he stated that they were also entering on the register any aliens picked up with contraband.

Re: INTERNAL SECURITY-J
ALIEN ENEMY CONTROL

Dear Sir:

Reference is made to your letter of March 10, 1942 with which you enclosed three copies of a Group Presidential Warrant for the apprehension of 21 Japanese alien enemies, and three copies of a Group Presidential Warrant for the apprehension of 28 Japanese alien enemies, both of the warrants being dated February 22, 1942.

It is noted that several of the names appearing on the warrant covering the 21 Japanese alien enemies are different from the names under which the Subjects were apprehended and therefore for the purpose of clarification the following is set forth.

Re: WEEKLY ARREST REGISTERS
INTERNAL SECURITY
ALIEN ENEMY CONTROL

Dear Sir:

Enclosed herewith are the German, Italian and Japanese Weekly Arrest Registers for the week ending July 25, 1942.

It will be noted that the column captioned "Date Del'd to I. & N. S." has not been filled in for numbers I 92 and J 2031, which is due to the situation wherein according to the Fresno Office of the San Francisco District of the Immigration and Naturalization Service, the United States Marshal is to handle the transportation of all Alien Enemies. The United States Attorney's office at Los Angeles has advised that Attorney General's circular #3700 provides for handling of transportation of Alien Enemies by the United States Marshal, upon apprehension by this Bureau, and that the Marshal will be requested to transport the two alien enemies represented by the above mentioned numbers to Los Angeles. As yet these individuals have not been placed in the custody of the Immigration and Naturalization Service. Upon the advice of the United States Attorney these Subjects were booked "Hold for the U. S. Marshal."

It is desired that the Bureau advise as to the procedure to be followed in the making of entries on the Arrest Register under this new method of handling Alien Enemies, wherein it appears that it may not be possible to turn the Subject immediately over to the Immigration Service upon apprehension.

Very truly yours,

R. B. Hood

INTERNAL SECURITY
ALIEN ENEMY CONTROL

Dear Sir:

Enclosed herewith are the German, Italian and Japanese Weekly Arrest Registers for the week ending July 25, 1942.

It will be noted that the column captioned "Date held to I. & N. S." has not been filled in for numbers I 92 and J 2031, which is due to the situation wherein according to the Fresno Office of the San Francisco District of the Immigration and Naturalization Service, the United States Marshal is to handle the transportation of all Alien Enemies. The United States Attorney's office at Los Angeles has advised that Attorney General's circular #3700 provides for handling of transportation of Alien Enemies by the United States Marshal, upon apprehension by this Bureau, and that the Marshal will be requested to transport the two alien enemies represented by the above mentioned numbers to Los Angeles. As yet these individuals have not been placed in the custody of the Immigration and Naturalization Service. Upon the advice of the United States Attorney these Subjects were booked "Held for the U. S. Marshal."

It is desired that the Bureau advise as to the procedure to be followed in the making of entries on the Arrest Register under this new method of handling Alien Enemies, wherein it appears that it may not be possible to turn the Subject immediately over to the Immigration Service upon apprehension.

Very truly yours,

SAC Hood called and advised that he had sent to the Bureau within the past few days several teletypes with reference to conditions at the Santa Anita Center where the Japs staged a little show. Hood said yesterday he had a request from the Army to make an investigation to see if we could not do something with reference to some of the responsible persons. Agents yesterday talked to the subjects involved and conducted investigations. Five of the subjects are aliens and six are citizens; they have enough on the aliens to intern them; he talked to the USA who authorized the emergency apprehension on the aliens so that they could be picked up for custodial detention.

The Army has made a request of the Bureau and of the USA to apprehend the six citizens. Hood stated that the USA had a wire from the Department about a week ago which stated that at the request of the Army the USA should detain any citizen which the Army requests be detained. Hood said they are not going to pick up any citizen unless and until he has a written request of some sort from General DeWitt, San Francisco. I told him it is up to the USA to figure out how he can legally detain a citizen. General DeWitt's office is being contacted and information is supposed to come down requesting that these citizens be picked up. I asked Mr. Hood on what basis. He said the USA will hold them as soon as the Army says they are dangerous. I told him the USA would have to have some charge on which to hold them; that we should have a warrant or something; that we should not go out and pick up a citizen just because the USA says so. ✓ Inasmuch as copies of Presidential Warrants for the above individuals, under the spellings indicated, have already been furnished to the Immigration and Naturalization Service, with appropriate explanations as to the identity of the individuals involved, the copies of the Presidential Warrants for the apprehension of these individuals, which were enclosed with reference letter, are not at this time being transmitted to that Service, pending Bureau instructions as to the disposition of these warrants.

Re; INTERNAL SECURITY
ALIEN ENEMY CONTROL

HERBERT SIEGFRIED KONIG, whose name is included in reference letter, was apprehended as a curfew violator under Public Law 503 and a complaint was filed against him. On March 31, 1942, he waived examination before the United States Commissioner, and was remanded to the Los Angeles County Jail in lieu of \$1,000.00 bond. At no time was he placed in the custody of the Immigration and Naturalization Service, and it is therefore desired that the Bureau advise whether in this instance it is desired that the Immigration and Naturalization Service be furnished with a copy of the Presidential Warrant.

This office has not a record of the apprehensions of the following individuals, for whom copies of Presidential Warrants were enclosed with reference letter. The United States Attorney at Los Angeles has advised that he has no record of having requested Presidential Warrants for these individuals, and the Immigration and Naturalization Service at Los Angeles has advised that that Service has no record of having had any of these individuals in custody. Information contained in the files of this office in regard to these individuals is set forth.

SHUNZO IWAKI, report of Special Agent DON OWENS, JR., at Los Angeles, March 7, 1942, in the case entitled SHUNZO IWAKI, INTERNAL SECURITY - J, ALIEN ENEMY CONTROL, reflects that subject's residence was searched for contraband February 13, 1942, and as none was found, he was not apprehended.

RYOZO KITAGAWA, report of Special Agent DON OWENS, JR., at Los Angeles, March 7, 1942, in the case entitled RYOZO KITAGAWA, with alias, INTERNAL SECURITY - J, ALIEN ENEMY CONTROL, reflects that subject's residence was searched for contraband February 13, 1942, and as none was found, he was not apprehended.

KENNICHI IWATA. The files of this office reflect that an individual of this name residing at 617 South Breed Street, Los Angeles, had requested a permit from the United States Attorney to travel to the Imperial Valley.

SHIMAHIKO KAMATANI, report of Special Agent JAMES A. GRAHAM, at Los Angeles, March 3, 1942, in the case entitled SHIMAHIKO KAMATANI, INTERNAL SECURITY - J, ALIEN ENEMY CONTROL, reflects the subject's residence was searched February 13, 1942, and as no contraband was found, he was not apprehended.

The Los Angeles files contain no reference as to ROBERT JULIUS IWAMI KUMATONI, SEIJI NATABARA.

RE: INTERNAL SECURITY
CUSTODIAL DETENTION LIST

Dear Sir:

Reference is made to Bureau letter, dated October 31, 1942, under the above caption, which listed the dangerousness classifications on Custodial Detention subjects in this territory. Among the names listed were those of Mrs. DAVID S. HARRIS, La Cresta, California, classification C-2, and DAVID S. HARRIS, La Cresta, California, classification B-1.

It is believed that the classifications for the above named individuals should have been sent to the San Diego Field Office, inasmuch as La Cresta, California, is within the territory of that office.

It is further noted that the report of Special Agent L. A. DUCOMMUN, San Diego, California, dated June 12, 1940, entitled SILVER SHIRTS ARMS CACHE IN SAN DIEGO, CALIFORNIA, TREASON, San Diego File No. 61-15, contains information concerning the above named individuals at La Cresta, California.

Yours truly,

CUSTODIAL DETENTION

Dear Sir:

Reference is made to Bureau teletype dated September 28, 1942, requesting the Los Angeles Field Division office to submit a report summarizing information concerning individuals of French nationality or sympathies who might be dangerous in the event of an emergency involving the United States and other countries of which they are nationals or sympathizers.

As of instant date, the Los Angeles office has no individuals of French citizenship or descent that it recommends to the Bureau for custodial detention.

A review of the files containing reports submitted to the Bureau regarding French nationals, does not contain information that any of the subjects in the Los Angeles files are potentially dangerous or against the interests of the United States.

It is noted that this summary reflects the apprehension of one Italian alien during the second quarter of 1944. The details regarding this apprehension are contained in the Quarterly Arrest Register for Italian Aliens, being sent as an enclosure with this letter.

Inasmuch as no entries were made of German and Japanese arrests during April, May, and June, 1944, no quarterly arrest registers for these aliens are being submitted at this time.

Reference is made to your letter dated May 17, 1944, in which you advised that the number of German alien enemies apprehended by your office totals 194, which figure includes eight non-enemy aliens. In addition to the alien enemies apprehended by your office, you advised that sixteen individuals who are citizens of the United States were also apprehended.

Inasmuch as both aliens and citizens were assigned Arrest Register Numbers, and inasmuch as the Bureau indices fail to indicate any Arrest Register Number higher than 200, you will advise the Bureau of those apprehended by your office who have been assigned Arrest Register Numbers from 201 to 210 inclusive, this being the total of alien enemies, non-enemy aliens, and United States citizens of German nationality who have been apprehended by your office as indicated by your letter of May 17, 1944.

Re: FIELD DIVISION ARREST REGISTER
ALIEN ENEMY CONTROL

Dear Sir:

Reference is made to Bureau letter dated April 20, 1944, in which this office was requested to advise the Bureau of any discrepancies between the Bureau figures for German alien apprehensions and those indicated on the records of this office.

I wish to advise that the total of 176 German alien apprehensions as noted in the letter from this office dated April 3, 1944, was incorrect, inasmuch as the correct total is 194, which figure includes eight non-enemy aliens. The German arrest register of this office further reflects that sixteen United States citizens were arrested by this office under the alien enemy control program because of pro-German activities. The names of these sixteen individuals are as follows:

MAX AUGUST ASMAN,
FRITZ BOEHM,
OTTO C. F. DINIUS,
FRANZ K. FERENZ,

RE: CUSTODIAL DETENTION

Dear Sir:

This office has submitted a number of Custodial Detention reports, particularly those reports dealing with the investigation of individuals for Communist activities. After the submission of a few of these reports, the Bureau has requested in certain individual cases that more definite information be obtained concerning the birthdate or nationality of the subject.

For example, unless an individual is employed in a National Defense plant where adequate records of birth are almost always available, this office has had to rely on information concerning birth taken from the subject's registration as a voter or marriage certificates and other public records of a similar nature. Apparently some of these have been acceptable to the Bureau and in other cases the Bureau has requested that more definite data be obtained.

It is, of course, extremely difficult, and many times impossible, without actually contacting the subject to obtain the exact date and place of birth or the exact date and place of naturalization of, say, the subject's parents when the subject claims derivative naturalization.

It would be extremely helpful to this office and, I feel, to other offices, if the Bureau would advise just how far the investigation should go towards establishing birth or citizenship, and what public records it considers sufficient for this purpose, together with any other helpful suggestions concerning this matter.

Very truly yours,

Re: SECURITY MATTERS

Dear Sir:

Reference is made to your letter of August 10, 1943, advising that your office has submitted a number of Security Matter reports, particularly those reports dealing with the investigation of individuals for Communist activities. You state that in certain cases the Bureau has requested more definite information relative to the birth date or nationality of the subjects. You further request advice as to just how far an investigation should be carried for the purpose of establishing this information.

The Bureau understands that in many instances it is extremely difficult to secure detailed information relative to the birth or nationality of a subject, particularly where that subject is not employed in a national defense plant or is not registered under the Selective Service Act. However, the Bureau is unable to prepare a proper Security Index card unless definite information along this line is available.

At the present time the Bureau will accept information appearing in the records of a national defense plant relative to a subject's birth if this information is complete. In addition, information taken from such public records as those of the Registrar of Voters or of marriage certificates will likewise be accepted if complete. By being complete it is meant that at least the actual date and place of birth, including the city or county, should be furnished.

In the event that such information as is outlined above cannot be secured within your field division, it is suggested that any case strong enough to warrant the submission of a summary report, looking toward the preparation of a Security Index card, is also strong enough to warrant the setting out of undeveloped leads in which auxiliary offices are called upon to secure detailed information as to the citizenship of the subject.

RE: CUSTODIAL DETENTION

Dear Sir:

This office has submitted a number of Custodial Detention reports, particularly those reports dealing with the investigation of individuals for Communist activities. After the submission of a few of these reports, the Bureau has requested in certain individual cases that more definite information be obtained concerning the birthdate or nationality of the subject.

For example, unless an individual is employed in a National Defense plant where adequate records of birth are almost always available, this office has had to rely on information concerning birth taken from the subject's registration as a voter or marriage certificates and other public records of a similar nature. Apparently some of these have been acceptable to the Bureau and in other cases the Bureau has requested that more definite data be obtained.

It is, of course, extremely difficult, and many times impossible, without actually contacting the subject to obtain the exact date and place of birth or the exact date and place of naturalization of, say, the subject's parents when the subject claims derivative naturalization.

It would be extremely helpful to this office and, I feel, to other offices, if the Bureau would advise just how far the investigation should go towards establishing birth or citizenship, and what public records it considers sufficient for this purpose, together with any other helpful suggestions concerning this matter.

Very truly yours,

R. B. HOOD
